DOCUMENT RESUME

ED 375 754 HE 027 853

TITLE	Educational Plant Survey. The University of Florida (Excluding IFAS and Health Center) March 21-24, 1994.
INSTITUTION	Florida State Dept. of Education, Tallahassee.
PUB DATE	Mar 94
NOTE	153p.
AVAILABLE FROM	Office of Educational Facilities, Educational Facilities Planning and Evaluation Section, Dept. of Education, Suite 1044, Florida Education Center, Ralph D. Turlington Bldg., 325 West Gaines Street, Tallahassee, FL 32399-0400.
PUB TYPE	Reports - Evaluative/Feasibility (142) -- Statistical Data (110)
EDRS PRICE	MF01/PC07 Plus Postage.
DESCRIPTORS	*Campus Planning; Capital Outlay (for Fixed Assets); *College Buildings; College Programs; Construction Costs; Construction Needs; *Educational Facilities Planning; Enrollment Projections; Facility Case Studies; Facility Improvement; Facility Inventory; Higher Education; *Long Range Planning; *Needs Assessment; Space Utilization; *State Universities; Tables (Data)
IDENTIFIERS	*University of Florida

ABSTRACT

This report presents the findings of an educational plant survey conducted for the University of Florida during March 1994. The survey is designed to assist the university in developing a plan for housing the programs and services that it provides. The report includes an overview of the university's history and purpose, enrollment trends, academic programs, and degree offerings. The main body of the report consists of an inventory of existing sites and buildings on the main campus and outlying facilities. Thirty-one tables list the inventory of academic buildings, the assignable square footage (ASF), condition, lifespan of existing structures, five-year plan for facility needs, and capital outlay allocations. The report also includes a description of the plan for housing academic programs, projected student enrollments, faculty, and staff for the ensuing 5-year period, along with an analysis of capital outlay finances for such construction and renovation necessary to implement the plan. Specific recommendations for plant construction, renovation, and improvement are included. (MDM)

PREFACE

An educational plant survey is a systematic study and evaluation of existing educational plants and the determination of future educational plant needs with respect to provision of appropriate facilities for accommodating educational programs and services for students. At least every five years, the Board of Regents of the State University System arranges for an educational plant survey for each university within the State University System pursuant to the requirement of Section 235.15, Florida Statutes (F.S.). The purpose of the survey is to aid the formulation of plans for housing the educational program, student population, faculty, administrators, staff, and auxiliary and ancillary services of the university for the following five-year period.

This publication, prepared for the Board of Regents and for the University of Florida, is the report of findings of the educational plant survey for the University of Florida conducted March 21-24, 1994. The report contains recommendations for the educational plants of the university for the period from March 21, 1994 through June 30, 1999. The recommendations herein supersede all previous survey recommendations not implemented as of March 21, 1994, by either execution of a construction contract or issuance of a purchase order.

The findings and recommendations contained in the survey report enable the university, the university president, the Chancellor of the State University System, and the Board of Regents to accomplish certain responsibilities with which they are vested. They provide the university with bases for the preparation of building programs submitted for review to the Board of Regents and the Office of the Governor under Rule 6C-14.020(1), Florida Administrative Code (FAC). They enable the university president to be judicious in submitting to the Chancellor plans for construction, renovation, and campus development under Rule 6C-4.01(3), FAC, and in recommending to the Chancellor a master plan for physical plants and grounds under Rule 6C-4.01(5)(c), FAC.

They assist the Chancellor in approving building programs, major renovations of campus facilities, and facilities budgets under Rule 6C-1.10(2)(i)2, FAC, and in recommending to the Board of Regents the allocation of construction funds within the State University System under Rule 6C-1.10(2)(i)1, FAC. They support the Board of Regents in adopting a proposed long-range plan for educational plants and auxiliary and ancillary facilities under Section 235.16, F.S., in adopting a capital outlay budget as part of the annual budget under Section 235.18, F.S., in preparing fixed capital outlay legislative budget requests under Section 240.209(3)(d), F.S., and in submitting to the Commissioner of Education a three-year plan and data required for development of the annual legislative capital outlay budget request under Section 235.41(2), F.S.

Additionally, the survey report serves to satisfy the mandate of Section 240.295(1), F.S., that no construction of new facilities or remodeling of existing ones, with certain limited exceptions, shall occur without being recommended in an educational plant survey. Finally, pursuant to Section 235.435(4)(a), F.S., all remodeling, renovation, and new construction projects included in the three-year priority list for legislative funding, prepared by the Board of Regents for the capital outlay budget request, must have been recommended by a survey.

The survey team gratefully acknowledges the contributions of time, effort, and expertise made by everyone who participated in the survey process: members of the faculty, staff, and administration of the University of Florida, staff of the Board of Regents, staff of the Florida Agricultural and Mechanical University, and staff of the Department of Education.

Section I

INTRODUCTION TO THE EDUCATIONAL PLANT SURVEY

The educational plant survey is the initial planning phase for providing public educational plants in the State of Florida. Careful planning contributes to appropriate housing of educational programs and services for students and to wise expenditure of public funds. The university educational plant survey is established in the Statutes of Florida and the Florida Administrative Code.

Statutory Foundations

The statutory foundations for educational plant surveys are described below.

Legal Basis

The legal basis for the educational plant survey is established in Section 235.15, Florida Statutes:

> **Educational plant survey required.**--At least every 5 years, each board, including the Board of Regents, shall arrange for an educational plant survey, to aid in formulating plans for housing the educational program and student population, faculty, administrators, staff, and auxiliary and ancillary services of the district or campus. Before educational plant survey of a school district or community college that delivers vocational or adult education programs, the Division of Vocational, Adult, and Community Education shall establish and transmit to the Office of Educational Facilities documentation of the need for additional vocational and adult education programs and the continuation of existing programs before facility construction or renovations related to vocational or adult education may be included in the educational plant survey. Information used by the Division of Vocational, Adult, and Community Education to establish facility needs must include, but need not be limited to, labor market data, needs analysis, and information submitted by the school district or community college. Each survey shall be conducted by the Department of Education or an agency approved by the commissioner. Surveys conducted by agencies other than the Department of Education shall be reviewed and approved by the commissioner. The survey report shall include at least an inventory of existing educational and ancillary plants; recommendations for new educational or ancillary plants, including the general

location of each; the utilization of school plants based on an extended school day or year-round operation; and such other information as may be required by the rules of the State Board of Education. An official copy of each survey report shall be filed by the board with the office. This report may be amended, if conditions warrant, at the request of the board or commissioner. Relocatables shall be included in the school districts inventory of facilities, but shall only be rated at one-half of actual student capacity for purposes of the inventory and future needs determination.

Definition

"Educational plant survey" means a systematic study of present educational and ancillary plants and the determination of future needs to provide an appropriate educational program and services for each student.

Purpose

The purpose of a university educational plant survey is to aid the university and the Board of Regents in formulating plans for housing the educational program and student population, faculty, administrators, staff, and auxiliary and ancillary services of the university for the following five-year period.

Requirement

At least every five years, the Board of Regents shall arrange for an educational plant survey for each university within the State University System.

Alternative Methods

An educational plant survey shall be conducted either by the Department of Education or by an agency approved by the Commissioner of Education. Surveys conducted by agencies other than the Department of Education shall be reviewed and approved by the Commissioner.

Status of Prior Surveys

A new educational plant survey shall supersede, as of the date it is conducted, all previous survey recommendations which have not been implemented either by execution of a construction contract or issuance of a purchase order.

Amendment of Current Survey

The current survey may be amended during the projection period if conditions appear to justify a change in the projected building construction program by request for a supplementary survey made by the Board of Regents or the Commissioner of Education.

Written Report

A written report containing the findings of the educational plant survey and recommendations for housing the educational programs and projected student population of the university shall be made to the university administration and the Board of Regents. An official copy of each survey report shall be filed by the Board with the Office of Educational Facilities.

Procedural Policies

Procedural policies incorporated in the educational plant survey process for universities are explained below.

Student Enrollment Projections

The survey uses five-year capital outlay full-time-equivalent student enrollment (COFTE) projections prepared by the Board of Regents. Projections are provided for all credit activity at each site for which facilities are required.

Educational Programs

The survey formulates a plan for housing the programs and services provided by the university. The plan is based on projections for programs approved by the Board of Regents through the academic program review process for the State University System.

Facility Needs

Survey evaluation and planning are conducted with reference to facility needs as determined by the fixed capital outlay ten-space-category needs generation formula. Driven by the COFTE projection, the formula involves performance levels for space use by the university based on legislatively mandated as well as generally accepted utilization standards. Additional facility needs are identified through the exception procedure. This method is used where the university has special problems or extraordinary needs not supported by the formula.

Physical Facilities Inventory

The survey uses the information about existing educational plants carried in the computerized physical facilities space file for the university which contains data for sites, buildings, and rooms. The inventory is validated through cooperative efforts of staff of the university, the Board of Regents, and the Office of Educational Facilities. One part of the validation process is the review of all spaces declared to be exempt or ineligible. These are spaces not generated by the ten-space-category needs formula and thus not included in the ten aggregate inventory square footages for the survey.

Space Utilization

Space evaluation and planning are conducted with regard to standard utilization criteria for instructional spaces. Criteria for classrooms are: 65 hours of room use per week, Monday through Saturday; 90 percent rate of room occupancy; 60 percent rate of station occupancy; and a specific number of average weekly student hours per COFTE for each discipline.

Standards for teaching laboratories are: 24 hours of room use per week for lower level courses and 20 hours of room use per week for upper level and graduate level courses; 80 percent rate of station occupancy; and a specific number of average weekly student hours per COFTE for each discipline.

Recommendations

The survey makes recommendations for site acquisition, development, and improvement, remodeling, renovation, and new construction for sites and facilities for which titles are vested in the Board of Regents in trust by the Department of Natural Resources, Internal Improvement Trust Fund. Standard recommendations are included for provision of custodial services facilities, provision of sanitation facilities, correction of safety deficiencies, replacement of defective roofs, and modification for compliance with accessibility requirements for persons with disabilities.

Recommendations for leased sites and facilities are made in accordance with the provisions of Sections 235.055 and 235.056, F.S. Recommendations pertaining to additional branch campuses, centers, and special purpose centers are considered only after a proposal for establishment submitted by the university has been recommended by the Board of Regents as well as the Postsecondary Education Planning Commission, approved by the State Board of Education, and authorized by the Florida Legislature.

State Funds

Survey recommendations establish need for capital outlay projects; they do not imply automatic availability of funds to pay for projects. Information about state funds for public education capital outlay projects and about eligibility for expenditure is found in Section 9(a)(2) of Article XII of the State Constitution, as amended, Chapters 235 and 240 of the Florida Statutes, and Rules 6A-2, 6C-1, 6C-7, 6C-9, and 6C-14 of the Florida Administrative Code.

Cooperative Process

A university educational plant survey conducted for the Board of Regents of the State University System, by the Department of Education, is accomplished through cooperative efforts of the university administration, staff of the Board of Regents, and staff of the Office of Educational Facilities. The steps in the cooperative survey process are listed below.

1. The Board of Regents, acting for and on behalf of the university, requests, by resolution, that the Department of Education conduct a survey to determine the status and needs of the educational plants of the university.

2. The director of the Educational Facilities Planning and Evaluation Section (Planning and Evaluation), Office of Educational Facilities, schedules the segments of the survey, appoints the survey director, and designates survey staff from the Department of Education.

3. The university president appoints the survey coordinator for the university.

4. The Chancellor appoints the survey advisor for the Board of Regents.

5. The survey director and other Planning and Evaluation staff are available for consultation and service to both the university and the Board of Regents throughout the survey process.

6. The survey director receives the five-year capital outlay full-time-equivalent student enrollment projections prepared by the Board of Regents from the survey advisor and gives them to the survey coordinator.

7. The university receives approval for program proposals from the Board of Regents through the academic program review process of the State University System.

   University staff prepare a list of programs, indicating which existing ones the university wishes to continue, expand, and delete, during the five-year period of the survey as well as those for which planning authorization or program approval has been granted.

8. The survey director receives information about facility needs as determined by the fixed capital outlay ten-space-category needs generation formula prepared by the Board of Regents from the survey advisor and gives it to the survey coordinator.

9. University staff furnish site plans and building schematics for all sites and buildings of the university, for which title is vested in the Board of Regents in trust by the Department of Natural Resources, Internal Improvement Trust Fund, and for those leased for more than one year to the university. Together, staff of the university, the Board of Regents, and the Planning and Evaluation Section, validate and correct data for sites, buildings, and rooms carried in the computerized physical facilities space files as well as the site plans and building schematics.

10. University administrators and staff prepare lists for each site of needs identified by the university for site acquisition, development, and improvement, remodeling, renovation, and new construction. Outdoor physical education facilities are included under site improvement. Items may be included for projects recommended by the prior survey which have not been started or funded through construction but still are needed.

    Items for remodeling and renovation contain specific information: building number and name; room numbers; current functions of spaces, use codes, and square footage; as well as needed functions of spaces, use codes, and square footages. Items for new construction specify needed functions of spaces, use codes, and net and gross square footage.

    Cost estimates are provided for items for site acquisition, development, and improvement; they may be furnished for other items as well. Cost estimates for survey recommendations involving building square footage are based on cost figures for the university used in the legislative capital outlay budget request for the fiscal year in which the survey is conducted. The survey director can provide these cost figures to the survey coordinator.

11. University staff prepare a survey workbook for use by survey staff during the needs assessment segment of the educational plant survey. The workbook contains documentation related to items 6, 7, 8, 9, and 10, above. It also contains general background information about the university. It is supplemented by a current university catalogue as well as available information regarding long-term plans for the institution, such as the master plan or other long-range planning documents.

    A copy of the workbook is provided for each survey staff member. One copy, along with the catalogue and long-term plans, is given to the survey director at least ten days before the opening date of the needs assessment segment of the survey. The other copies may be distributed to survey staff at the beginning of the needs assessment.

12. The survey advisor furnishes the survey director with particular financial information pertaining to capital outlay allocations by fund source and capital outlay allocations by project type.

13. The survey director and staff conduct the needs assessment segment of the educational plant survey on site at the university. They visit and evaluate all existing sites and facilities. They study and analyze all available information relevant to educational and ancillary plant needs. They consider formula needs, examine justifications of exceptional needs, and discuss the needs with university administrators and staff. Finally, they develop recommendations to provide for the needs.

14. The survey director, aided by survey staff, prepares the written report of findings and recommendations for the university and the Board of Regents. An official copy is filed with the Office of Educational Facilities.

Section II

OVERVIEW OF THE UNIVERSITY

The goal of the educational plant survey is to assist the university by developing a plan for housing the programs and services provided by the university. Educational plant needs are the focus of the survey. It also helps to have a general understanding of the university. The following information was provided by the university.

Historical Perspective

Florida's oldest university, the University of Florida traces its beginnings to the takeover of the private Kingsbury Academy in Ocala by the state-funded East Florida Seminary in 1853. The Seminary was moved to Gainesville following the Civil War. It was consolidated with the state's land-grant Florida Agricultural College, then in Lake City, to become the University of Florida (UF) in Gainesville. The university opened in 1906, with an initial enrollment of 102 students. Today, the University is among the 20th largest universities in the nation with an enrollment of more than 35,000 students.

The University of Florida's main campus is located on 2,000 acres, most of it within Gainesville, a city of more than 88,000 located in north central Florida, midway between the Atlantic Ocean and the Gulf of Mexico. The city is known as an agricultural and small industrial center.

University of Florida students--numbering more than 36,000 in fall 1993--come from more than 100 countries (1,872 foreign students), all 50 states, and every one of the 67 counties in Florida. The ratio of men to women is 54-46. Thirty-three percent are freshmen and sophomores and 43 percent, juniors and seniors. More than 6,100, or 17 percent, of the student body are graduate students, and 2,175 or 7 percent, are in the professional programs of medicine, dentistry, veterinary medicine, and law.

The University of Florida is among the nation's 51 leading research universities as categorized by the Carnegie Commission on Higher Education. UF is a member of the Association of American Universities, the nation's most prestigious higher education organization. The university is accredited by the Southern Association of Colleges and Schools--Commission on Colleges to award the degrees of bachelor, master, specialist and engineer, as well as doctoral and professional degrees. UF is one of the nation's top three universities offering more academic programs on a single campus than any of the nation's other universities. It has 20 colleges and schools and 100 interdisciplinary research and education centers, bureaus, and institutes. One hundred and fourteen majors are offered in 52 undergraduate degree programs. The Graduate School coordinates 123 master's and 76 doctoral programs in 87 of the 137 UF academic departments. Professional post-baccalaureate degrees are offered in law, dentistry, medicine, and veterinary medicine.

A distinguished faculty of over 3,900 attracted more than $235 million in research and training grants in 1991-92. More than 1,800 were grant awardees, and 70 percent of the faculty's grant proposals were successful. UF now has 55 eminent scholar chairs, more than all of the other state universities combined. Nearly two dozen faculty members have been selected to the National Academies of Science and/or Engineering, the Institute of Medicine or a counterpart in a foreign nation.

Statement of Purpose

The University of Florida is a public, land-grant research university, one of the most comprehensive in the United States; it encompasses virtually all academic and professional disciplines. It is the oldest and largest of Florida's ten universities and a member of the American Association of Universities. Its faculty and staff are dedicated to the common pursuit of the university's three-fold mission: education, research, and service.

Education--undergraduate and graduate through the doctorate is the fundamental purpose of the university. Research and scholarship are integral to the education process and to expanding humankind's understanding of the natural world, the mind, and the senses. Service is the university's obligation to share the benefits of its knowledge for the public good.

These three interlocking elements span all of the University of Florida's academic disciplines and multidisciplinary centers and represent the university's obligation to share the needs of Florida's citizens and the nation by pursuing and disseminating new knowledge while building upon the past. Every dimension of the university bespeaks its commitment to a culturally and internationally diverse intellectual environment in which teaching, research, and service are fully integrated with its interdisciplinary pursuits to meet the changing needs of the global community.

The University of Florida is committed to providing the knowledge, benefits, and services it produces with quality and effectiveness. It aspires to further national and international recognition for its initiatives and achievement in promoting human values and improving the quality of life.

Section III

ANALYSIS OF STUDENT POPULATION

Student enrollment is the single most important factor considered by the survey team in making decisions related to planning square footage size and total amount of facilities. The unit of enrollment used by the survey is the capital outlay full-time-equivalent student (COFTE). One undergraduate COFTE represents enrollment in 40 credit hours during the academic year; one graduate COFTE stands for 32 credit hours. The level of enrollment used is the number of COFTE projected for the fifth year beyond the fiscal year in which the survey is conducted. This is consistent with the five-year planned enrollment cycle for the State University System.

The survey uses COFTE projections prepared by the Board of Regents. Projections are provided for all credit activity at each site for which facilities are required. Enrollments are identified by discipline group within level of student.

Planned Enrollments

The planned enrollments for the University of Florida, prepared by the Board and used in the survey, are presented by discipline by site in the following tables. Table 1 gives COFTE projections for lower level undergraduate students for Site 1, Main Campus (Excluding Health Sciences Center), Table 2 for upper level undergraduate students, and Table 3 for graduate students. Table 4 provides a summary of the projections for Site 1, Main Campus. Table 5 shows an analysis of enrollment change from the base year of 1994-95 to the projection outyear of 1998-99 for Site 1, Main Campus.

The enrollment projections presented here were developed for use in the generation of capital outlay needs only. They were prepared by level but not by discipline. The enrollment projections by discipline shown here are based on the current year discipline distribution of FTE enrollments.

Section IV

ACADEMIC PROGRAMS OF THE UNIVERSITY

Decisions regarding academic programs provided by the university come under the purview of the university president and the Board of Regents. Consistent with Section 240.227(16), F.S., the president makes recommendations to the Board regarding establishment as well as termination of degree programs. The Board, under the provisions of Section 240.209(3)(c) and Section 240.209(3)(i), F.S., clearly has responsibility for approving new degree programs for all state universities as well as terminating programs when evidence warrants.

Further, in accordance with Section 240.209(3)(j), F.S., the Board is responsible for adopting a systemwide master plan for the State University System as well as a master plan for each university which identifies the degree programs to be offered at the university. Pursuant to Section 240.2095(1)(d), F.S., new programs for a university can be approved only if they are consistent with the master plans.

When a university wants to begin a new degree program, the proposal must pass through the academic review process for the State University System. In accordance with Section 6C-3.08, FAC, the university president must request and receive authority from the Board of Regents first to study the feasibility of the new program, then to plan the program, and finally to implement it.

The supportive role of the educational plant survey is to formulate a plan for housing the programs and services offered by the university. The survey team developed a comprehensive five-year plan for appropriately accommodating the academic programs, student population, faculty, administrators, staff, and auxiliary and ancillary services of the university.

The University of Florida provides a wide variety of academic programs. The university (excluding IFAS and Health Center) is organized into ten colleges, many of which include different departments and interdisciplinary programs. Academic degree programs are shown on the next two pages. After each program, the degree(s) available in that area are shown as follows: B-Bachelor, M-Master, S-Specialist, D-Doctoral, E-Engineering, P-Professional.

Section V

INVENTORY OF EXISTING SITES AND BUILDINGS

During the educational plant survey, members of the survey team visited all existing sites and buildings of the university for which titles are vested in the Board of Regents, in trust by the Department of Natural Resources, Internal Improvement Trust Fund, as well as those under long-term lease to the university. They examined buildings with regard to physical condition to determine whether they could be classified as satisfactory and recommended for continued use. They also evaluated facilities with respect to adequacy and suitability for accommodating the academic programs and related services provided by the university. This report does not include sites and buildings that are completely used as domiciles by students.

Description of Sites

The University of Florida - E&G, has ten owned sites, the Main Campus, WRUF Radio Transmitter, WUFT TV Transmitter Tower, TREEO Center, Observatory (Bronson), Tanglewood, Sea Horse Key Marine Laboratory, Thomas Farm-Bell Dig, Lake Wauberg, and UF Research Park. It also leases two sites, the Observatory at Old Town and Whitney Lab in St. Augustine. Each of the owned sites is described below.

Main Campus

The Main Campus, Site 1, is located in downtown Gainesville, South of West University Avenue and west of SW 13th Street. The Campus (E&G) contains 384 buildings set on some 2,000 acres of land.

WRUF Radio Transmitter

WRUF Radio Transmitter, Site 3, is a special purpose site located on SW 8th Avenue in Gainesville. The site contains five permanent buildings set on sixty acres of land.

WUFT TV Transmitter Tower

WUFT TV Transmitter Tower, Site 4, is a special purpose site located on Millhopper Road, approximately five miles northwest of downtown Gainesville. The site contains two permanent buildings set on fifty acres of land.

Treeo Center

Treeo Center, Site 5, an instructional center, is located west of Gainesville at 3900 SW 63rd Boulevard. The site contains one permanent building set on five acres of land.

Tanglewood Apartments

Tanglewood Apartments, Site 13, predominately a residential site, is located at NW 13th Street in Gainesville. The site contains 14 permanent buildings set on nine acres of land.

Lake Wauberg

Lake Wauberg, Site 14, is a special purpose site located approximately six miles south of Gainesville, on Route US 441 South. The site contains ten permanent buildings and one mobile structure set on 92 acres of land.

Observatory

Observatory, Site 101, is a special purpose center located in the town of Bronson, off County Road 337, approximately 20 miles southwest of Gainesville. The site contains four permanent buildings set on fifty-nine acres of land.

Sea Horse Key Marine Lab

Sea Horse Key Marine Lab, Site 102, is an instructional site located at Sea Horse Key in Cedar Key, approximately fifty miles southwest of Gainesville. The site contains two permanent buildings and one temporary building set on approximately three acres of land.

Thomas Farm-Bell Dig

Thomas Farm-Bell Dig, Site 105, is a special purpose center located in the community of Bell off County Road 129/County Road 138, approximately thirty miles west of Gainesville. The site contains one permanent building and two temporary structures set on forty acres of land.

UF Research Park

UF Research Park, Site 106, is a special purpose center located at 1 Progress Center in the town of Alachua, about fifteen miles north of Gainesville. The site contains one permanent building set on four and a half acres of land.

Description of Buildings

The owned academic buildings of the university are listed by site in Tables 6 through 15. In the tables, the building number and name are given. The status information refers to the degree of permanence of the building based on structural materials and life expectancy. For example, a building constructed of masonry and steel and having a fifty-year lifetime is classified as permanent. One constructed of wood and having a much shorter life span is listed as temporary. During the period between the construction contract award and the final inspection, a building is classified as under construction.

The condition classification reports whether the physical quality of the building has been evaluated by the survey team as satisfactory or unsatisfactory. Buildings described in the table as satisfactory or in need of remodeling or renovation are included in the satisfactory category. Those identified as in need of demolition or appropriate for termination are included in the unsatisfactory category. Facilities determined to be satisfactory by the survey team are recommended for continued use.

Assignable square footage (ASF) is defined as the sum of all areas on all floors of a building assigned to or available for assignment to and functionally usable by an occupant. Non-assignable square footage (NonASF) is the sum of all areas on all floors not available for assignment to an occupant, specifically, custodial, mechanical including toilet, and interior circulation spaces. Gross square footage (GSF) is the sum of the floor areas of the building included within the outside faces of exterior walls for all stories or areas which have floor surfaces.

The survey team evaluated all academic buildings at the 10 owned sites. Their findings are described below.

Site 1, Main Campus

The 384 owned buildings, located at Site 1, Main Campus, include 290 academic buildings. Eight-two buildings are residential facilities, such as dormitories and student apartments, which are not addressed by the survey. The 290 academic buildings, which are the focal point of the regular five-year educational plant survey, are listed in Table 6.

The survey team evaluated the 290 buildings; 234 are permanent structures; 44 are temporary types; and 12 are under construction. Most of the permanent buildings are in satisfactory condition, but 29 need to be remodeled or renovated. Seven permanent buildings are unsatisfactory and need to be terminated: Building 0095, Waste Water Treatment Plant; Building 0105, Digester; Building 0253, Blower Building; Building 0254, Physical Plant Chlorine Storage; Building 0469, PPD Maintenance Shop; Building 0606, Control Waste Water Treatment; and Building 0839, Digester and Blower Building. Two permanent buildings need to be razed: Building 0500, Building 500 and Building 0828, Building AC.

Thirty-six of the temporary buildings are in satisfactory condition. Eight are in an unsatisfactory condition and need to be razed: Building 0814, Metal Shed; Building 0860, Greenhouse; Building 1025, South Single-Wide Modular; Building 1026, Center

Single-Wide Modular; Building 1027, North Single-Wide Modular; Building 1028, South Double-Wide Modular; Building 1029, Center Double-Wide Modular; and Building 1030, North Double-Wide Modular.

Twelve buildings are under construction: Building 0316, Recreational Sports Facility; Building 0317, Chilled Water Plant #6; Building 0347, Recreational Facilities Score Keeper; Building 1053, Chilled Water Plant #5; Building 1054, C.W.P. #5 Cooling Towers; Building 1055, Electric Switch House #12; Building 1070, Waste Water Treatment Administration; Building 1071, Waste Water Treatment Shop; Building 1072, Waste Water Treatment Storage; Building 1073, WWTP Blower/Generator/Electric; Building 1074, Waste Water Treatment Sludge; and Building 1075, Waste Water Treatment Electric.

Site 3, WRUF Radio Transmitter
The five permanent structures at Site 3, WRUF Radio Transmitter Special Purpose Site, are in satisfactory condition. They are listed in Table 7.

Site 4, WUFT TV Transmitter Tower
The two permanent buildings at Site 4, WUFT TV Transmitter Tower Special Purpose Site, are in satisfactory condition. They are listed in Table 8.

Site 5, Treeo Center
The one permanent building at Site 5, Treeo Center Special Purpose Center, is in satisfactory condition. It is listed in Table 9.

Site 13, Tanglewood
Eleven of the fourteen permanent buildings, located at Site 13, Tanglewood Apartments, are completely residential and are not considered by the survey. Three of the buildings house some academic functions and are listed in Table 10. All three buildings are in satisfactory condition.

Site 14, Lake Wauberg
Four of the ten permanent buildings, located at Site 14, Lake Wauberg Special Purpose Site, house some academic functions. The four academic buildings are in satisfactory condition and are listed in Table 11.

Site 101, Observatory
Three of the four permanent buildings, located at Site 101, Observatory Special Purpose Center, house some academic functions. The three academic buildings are in satisfactory condition and are listed in Table 12.

Site 102, Sea Horse Key Marine Lab
There are two permanent buildings and one temporary building, located at Site 102, Sea Horse Key Marine Lab Instructional Site. The three buildings are in satisfactory condition and are listed in Table 13.

Site 105, Thomas Farm-Bell Dig

There is one permanent building and two temporary buildings located at Site 105, Thomas Farm-Bell Dig Special Purpose Center. The three buildings are in unsatisfactory condition and should be razed: Building 1050, Thomas Farm-Residence; Building 1051, Thomas Farm-Trailer; and Building 1052, Thomas Farm-Pole Barn. The buildings are listed in Table 14.

Site 106, UF Research Park

UF Research Park Special Purpose Center, Site 106, includes one permanent building. The building is in satisfactory condition and is listed in Table 15.

Types and Amounts of Assignable Space

The assignable space of an educational plant accommodates a variety of functions including instruction, academic support, and institutional support. Instructional facilities include classrooms, teaching laboratories, and research laboratories as well as related service areas.

Auxiliary and ancillary facilities provide for the noninstructional functions of a university. Auxiliary facilities are those which house academic support and institutional support functions located at campuses and instructional centers. Ancillary facilities are those which provide for universitywide institutional support at central locations.

Academic support facilities include areas for library, instructional media, assembly and exhibition, and gymnasium functions. Institutional support facilities include student services facilities which consist of spaces for food, lounging, merchandising, recreation, and meeting room services for students as well as faculty, administrators, and staff; all office and conference facilities as well as administrative data processing areas; and support services facilities which consist of maintenance shops, central storage, and vehicle storage.

During the survey process, the square footages of the many types of facilities are grouped into ten standard assignable space categories: classroom, teaching laboratory, research laboratory, library, instructional media, assembly and exhibition, gymnasium, student services, office and computer, and support services. Besides the ten standard categories, there are two additional assignable space categories: residential which includes dormitory, apartment, and other housing facilities; and other which consists of armory, athletic spectator seating, nonhealth clinic, demonstration, field, locker room, and health care facilities.

The survey also considers whether assignable space is eligible or ineligible for the fixed capital outlay space needs generation formula. Most positions, programs, and activities of the university generate space need according to the formula; the space in which they are housed is called eligible. However, certain other important positions, programs, and activities do not generate a need when the formula is used; the space provided for them is called ineligible. Such space can be part of any of the space categories.

The amount of eligible and ineligible space for all the assignable space categories in each satisfactory academic building of the University of Florida for which title is vested in the Board of Regents, in trust by the Department of Natural Resources, Internal Improvement Trust Fund, is presented in Tables 16 through 24. There is a separate table for each of the ten owned sites on which are located owned, satisfactory, academic buildings. Building numbers are not listed and space is not included for buildings determined to be unsatisfactory by the survey team, for residential facilities, and for the developmental research school. Unsatisfactory space in satisfactory academic buildings also is excluded. A summary of satisfactory, eligible space for the ten standard assignable space categories is given by site in Table 25.

Section VI

PLAN FOR HOUSING PROGRAMS, STUDENTS, PERSONNEL, AND SERVICES

The survey team developed a plan for housing academic programs, projected student enrollments, faculty, staff, and administrators, and auxiliary and ancillary services for the ensuing five-year period. The planning process required evaluation of existing educational plants, determination of future needs, and recommendations for changes and additions to existing plants to provide for future needs.

Determination of Needs

The basic method used to determine the facilities required by a university to accommodate educational programs, student enrollments, personnel, and services is the fixed capital outlay space needs generation formula. The space needs formula provides for instructional, research, academic support, student services, and institutional support services needs. It recognizes ten categories of space: classroom, teaching laboratory, research laboratory, library, instructional media, assembly and exhibition, gymnasium, student services, office and administrative data processing, and support services.

Although each of the ten categories is treated individually in the formula, only three basic methods are used for generating space. They include: space factors for scheduled space, allotments for nonscheduled space, and space provided as a percentage of other space. Further, while the capital outlay full-time-equivalent enrollment (COFTE) projection by site acts as primary generator, the formula recognizes variations in space requirements derived from discipline groupings, course levels, research programs, and library holdings as well as faculty, staff, and contract and grant positions. Thus the formula results in campuswide aggregate square footage allocations for the ten standard assignable space categories based on the combination of students, programs, faculty, and staff unique to the university.

The alternative method for identifying facility needs is the exception procedure. This method is used where the university has special problems or extraordinary needs not supported by the formula. One example is unusual requirements for a particular type of teaching laboratory. Another example is minimal facilities for a program which are not provided by the space needs generated from the initial enrollment level for the program.

The particular space standards used in the fixed capital outlay space needs generation formula for determining the needs of Site 1, Main Campus, of the University of Florida are displayed in Table 26. Aggregate square footage allocations for the ten standard assignable space categories as generated for the university by the formula are presented in Table 27.

TABLE 26

SPACE STANDARDS USED IN FIXED CAPITAL OUTLAY TEN SPACE CATEGORY NEEDS GENERATION FORMULA SITE 1: MAIN CAMPUS

Space Type by Category	Space Standard
Classroom	
Lower Level Undergraduate	8.08 ASF per FTE
Upper Level Undergraduate	8.06 ASF per FTE
Beginning Level Graduate	4.85 ASF per FTE
Advanced Level Graduate	3.84 ASF per FTE
Teaching Laboratory	
Lower Level Undergraduate	12.93 ASF per FTE
Upper Level Undergraduate	14.82 ASF per FTE
Beginning Level Graduate	11.04 ASF per FTE
Advanced Level Graduate	8.03 ASF per FTE with 50,000 ASF Minimum
Research Laboratory	
Beginning Level Graduate	26.34 ASF per FTE
Advanced Level Graduate	243.59 ASF per FTE
Contract & Grant Research Faculty	206.73 ASF per FTE
Educational & General Research Faculty	379.97 ASF per FTE
Library	
Study Area	
Undergraduate Level Reading Room	6.25 ASF per FTE
Beginning Level Graduate Carrel	7.50 ASF per FTE
Advanced Level Graduate Carrel	12.11 ASF per FTE
Law Student Carrel	15.00 ASF per FTE
Faculty Carrel	3.91 ASF per FTE
Stack Area	Total of 0.10 ASF per volume for first 150,000 volumes, plus 0.09 ASF per volume for second 150,000 volumes, plus 0.08 ASF per volume for next 300,000 volumes, plus 0.07 ASF per volume for volumes above 600,000
Service Area	5 percent of total ASF for reading, study and stack areas
Instructional Media	5 percent of total ASF for classroom and teaching laboratory categories
Assembly/Exhibition	3.00 ASF per FTE, with 25,000 ASF minimum
Gymnasium	38,000 ASF minimum, plus 3.00 ASF per FTE for all FTE over 5,000 FTE
Student Services	7.50 ASF per FTE
Office/Computer	145.00 ASF per position
Support Services	5 percent of total ASF generated by formula plus 5 percent of other existing space requiring support services

Plan for Accommodating Needs

Facility planning for housing educational programs, student enrollments, faculty, staff, and administrators, and auxiliary and ancillary services involves assessment of present plants, identification of future needs, and recommendations for remodeling, renovation, and new construction to meet the needs. During the survey, current physical facilities space file data were compared with square footage needs generated by the formula. Category aggregate square footages of existing space were measured against campuswide space allocations for the ten standard assignable space categories to evaluate what type of recommendations needed to be made by the survey.

The formula provides for many kinds of space but does not address all the space needs of a university. Therefore, the survey considered needs identified through the exception procedure as well. This approach deals with special problems and extraordinary needs not supported by the formula but justified by the university. For example, the formula does not allow for a critical mass of space required for a new program with only initial enrollment. Further, the formula does not generate space for some positions, programs, and activities which are important to the overall function and operation of the university. The latter kind of space is ineligible for or exempt from the capital outlay generation formula. Thus, existing ineligible space is not included within the space inventory which is compared with formula allocations.

The comparison of existing eligible space with formula generated square footage needs for the University of Florida is given by category in Table 28. A summary of the five year plan for accommodating both eligible and ineligible facility needs of the university, showing the effects of each recommendation, is presented by category in Table 29. Because site improvement recommendations do not effect building square footages, these recommendations are omitted from the table. The effects of remodeling, renovation, and new construction recommendations are included.

Specific information related to the tables is provided throughout the survey report. Planned enrollments for 1998-99 are given in Section III. Academic programs are listed in Section IV. Existing inventory information is found in Section V. Space utilization criteria are described in Section I. Space standards used in the fixed capital outlay needs generation formula are shown in Table 26 of this section.

Formula allocations for the ten space categories are presented in Table 27 of this section. The exception procedure for identifying needs is explained in Section I and VI. Ineligible space is discussed in Sections V and VI. Recommendations for remodeling, renovation, and new construction are included in Section VIII.

Section VII

ANALYSIS OF CAPITAL OUTLAY FINANCES

The survey team developed a comprehensive plan for meeting the educational plant needs of the university for the succeeding five-year period. During the planning process it evaluated needs for site acquisition, development, and improvement, remodeling, renovation, and new construction. Implementation of the complete plan for the University of Florda as set forth in the survey recommendations described in Section VIII was estimated to cost $198,739,982.

Financial capacity for accomplishing the plan depends upon the amount of future revenues made available to the university. Thus revenue sources accessible for capital outlay expenditure are discussed below. In addition, information regarding the source and distribution of recent capital outlay allocations is found in Tables 30 and 31.

Revenue Sources for Capital Outlay

Under the provisions of the Public Education Bond Amendment, Section 9(a)(2), Article XII, State Constitution, as amended, proceeds of revenues derived from gross receipts taxes for utility services are placed in the Public Education Capital Outlay and Debt Service Trust Fund. Revenues, interest, and proceeds derived from the sale of public education capital outlay bonds issued by the State Board of Education are used to finance capital projects for the state system of public education as authorized by the Legislature. Funds accruing under this section commonly are referred to as public education capital outlay (PECO).

Each year the Legislature allocates funds from the Public Education Capital Outlay and Debt Service Trust Fund appropriation to the various boards in the state system of public education. Pursuant to Section 235.41, F. S., the Commissioner of Education submits a comprehensive capital outlay budget request for all boards to the Legislature. In accordance with Subsection 235.435 (1)(a), F. S., each board annually receives an allocation for remodeling, renovation, maintenance, repairs, and site improvement for existing satisfactory facilities. Further, under the provisions of Subsection 235.435(4)(a), F. S., the Board of Regents receives funds for projects based on a three-year priority list for the entire State University System included in the legislative budget request.

In addition, university students pay building fees and capital improvement fees (CIF). Pursuant to Subsection 235.42(2), F. S., these fees are collected by the Board of Regents, deposited in the Public Education Capital Outlay and Debt Service Trust Fund, and allocated by legislative appropriation. In accordance with Subsection 240.209(3)(h), F. S., the fee rates are established at $2.44 per credit hour per semester for the capital improvement fee and $2.32 for the building fee.

Further, Subsection 240.295(2), F. S., provides additional authority for the State University System to construct and remodel buildings when they are funded by nonstate sources and operated and maintained by other than state general revenue; to replace buildings destroyed by fire or other calamity; and to perform other construction and remodeling projects which do not exceed $100,000.

Moreover, pursuant to Subsection 243.131(1), F. S., the Board of Regents may negotiate with the federal government as well as other governmental and private agencies for funds to construct dormitories and other auxiliary accommodations to serve student and faculty needs. Such loans are secured by issuance of revenue certificates which are retired by income derived from rental of the facilities.

Section VIII

RECOMMENDATIONS FOR EDUCATIONAL PLANTS

The comprehensive five-year plan for meeting the educational plant needs of the University of Florida is specified in the list of recommendations formulated by the survey team. The plan provides for housing the educational program, student population, faculty, administrators, staff, and auxiliary and ancillary services of the university.

Survey recommendations establish the need for university facilities (Section 240.295(1), F.S.). Recommended items are the basic components of projects used in developing long-range plans for educational plants and auxiliary and ancillary facilities (Section 235.16, F.S.), in adopting capital outlay budgets (Section 235.18, F.S.), in preparing fixed capital outlay legislative budget requests (Section 240.209(3)(d), F.S.), and in submitting three-year plans for the Commissioner's annual legislative capital outlay budget request (Section 235.41(2), F.S.).

Survey recommendations are required for all remodeling, renovation, and new construction projects included in the three-year priority list for legislative funding, prepared by the Board of Regents for the budget request (Section 235.435(4)(a), F.S.).

Recommendations support university staff in preparing building programs (Rule 6C-14.020(1), FAC), and the university president in submitting plans for construction, renovation, and campus development to the Chancellor (Rule 6C-4.01(3), FAC) and in recommending a master plan for physical plants and grounds to the Chancellor (Rule 6C-4.01(5)(c), FAC).

They also provide guidance for the Chancellor in approving building programs, major renovations, and facilities budgets (Rule 6C-1.10(2)(i)2, FAC) and in recommending university construction funds to the Board of Regents (Rule 6C-1.10(2)(i)1, FAC).

Recommendations can be made only for officially designated sites. These sites include main campuses listed in Section 240.2011, F.S., branch campuses approved by the State Board of Education and authorized by the Legislature through the appropriations process, and centers and special purpose centers ratified by the Board of Regents. Recommendations for any leased sites and facilities are made in accordance with the provisions of Section 235.055, .056, F.S.

Recommendations are grouped by site according to the classifications of site acquisition, development, and improvement, remodeling, renovation, and new construction, as defined in Section 235.011, F.S. Occasionally a recommendation occurs which encompasses more than one classification; such recommendations are included under the combination category.

Cost estimates included with recommendations were current at the time of the survey. Estimates for new construction were based on the unweighted average gross square foot cost of construction for the university used in the legislative capital outlay budget request for the fiscal year in which the survey was conducted. The amount for the University of Florida was $117.88 per gross square foot (GSF). Estimates for remodeling were calculated at one-half of that amount or $58.94 per net square foot (NSF). Those for renovation were figured at one-third or $38.90 per NSF. Cost estimates for recommendations not involving building square footage were based on the best available relevant information.

However, the cost estimates are not part of the recommendations. They are added to provide a general idea of anticipated costs and are not accurate estimates for particular projects. At the time the university requests funding for a specific project, university staff need to prepare actual cost estimates which then are reviewed by the Board of Regents. Often, actual estimates will vary significantly from those included with recommendations.

At the end of the list, five standard recommendations are given for universitywide application, as needed. They address general categories of physical plant need which are likely to occur across time. No cost estimates are included with these recommendations.

SITE 1: MAIN CAMPUS

Site Improvement

1.01. Renovate campuswide chilled water and steam utility systems to include, replacement of chillers and steam generators, replacement of chilled water and steam distribution systems, controls, and compliance with CFC regulations.

Estimated Cost: $ 19,500,000

1.02. Construct completion of campuswide chilled water and steam utility system.

Estimated Cost: $ 19,500,000

1.03. Renovate campuswide electrical distribution system to include, replacement and addition of switches, controls, feeders, transfer gear.

Estimated Cost: $ 7,650,000

1.04. Construct completion of campuswide electrical distribution systems, to include substations.

Estimated Cost: $ 7,650,000

1.05. Renovate campuswide stormwater management system, to include replacement and addition of related equipment and structures including ponds and wells.

Estimated Cost: $ 650,000

1.06. Construct completion of campuswide stormwater management system.

Estimated Cost: $ 650,000

1.07. Renovate campuswide sanitary sewer system, to include replacement of related equipment and structures including pumps, lift stations, and distribution mains.

Estimated Cost: $ 950,000

1.08. Construct completion of campuswide sanitary sewer system.

Estimated Cost: $ 950,000

1.09. Renovate campuswide telecommunications system, to include voice, data, video, fire alarm, energy management, and communications networks.

Estimated Cost: $ 1,050,000

1.10. Construct completion of campuswide telecommunications systems, to include fiber optic campuswide system and copper wiring building systems.

Estimated Cost: $ 1,050,000

1.11. Renovate campuswide irrigation system to include, replacement of new controls, distribution equipment and wells.

Estimated Cost: $ 500,000

1.12. Construct completion of campuswide irrigation utility system.

Estimated Cost: $ 500,000

1.13. Renovate campuswide potable water system.

Estimated Cost: $ 4,500,000

1.14. Construct completion of campuswide potable water system.

Estimated Cost: $ 4,500,000

1.15. Construct an expansion of North-South Drive to include widening between Museum and Archer Roads, with hard surface, positive drainage and illumination; approximately 2800 linear feet.

Estimated Cost: $ 750,000

1.16. Construct campuswide communications system to include 800 megahertz trunked 2-way radio system with land based stations, hand held and mobile units; transmit/receive towers as necessary.

Estimated Cost: $ 3,000,000

Total Site Improvement: $ 73,350,000

Remodeling

1.17. Remodel Building 0007 - James N. Anderson Hall; all rooms; as classroom facilities and service areas; use codes 110, 115; 8640 NSF; as teaching laboratory facilities and service areas; use codes 210, 215, 220, 225, 230, 235, 240, 245; 1320 NSF; as library facilities and service areas; use codes 410, 420, 430, 440, 455; 1320 NSF; as office/computer facilities and service areas; use codes 310, 315, 350, 355, 710, 715; 10680 NSF; and as circulation, custodial, sanitation, mechanical facilities; use codes WWW, XXX, YWC, YYY; 8949 NSF; total 21,960 NASF, 30,909 NSF.

Estimated Cost: $ 1,821,776

1.18. Remodel Building 0008 - Flint Hall; all rooms; as classroom facilities and services areas; use codes 110, 115; 3450 NSF; as teaching laboratory facilities and service areas; use codes 210, 215, 220, 225, 230, 235, 240, 245; 7280 NSF; as office/computer facilities and service areas; use codes 310, 315, 350, 355, 710, 715; 8930 NSF; and as circulation, custodial, sanitation, mechanical facilities; use codes WWW, XXX, YWC, YYY; 4218 NSF; total 19,660 NASF, 23,878 NSF.

Estimated Cost: $ 1,407,369

1.19. Remodel Building 0012 - Peter Rolfs Hall; all rooms; as teaching laboratory facilities and service areas; use codes 210, 215, 220, 225, 230, 235, 240, 245; 5333 NSF; as research laboratory facilities and service areas; use codes 250, 255, 570, 575; 3000 NSF; as office/computer facilities and service areas; use codes 310, 315, 350, 355, 710, 715, 11505 NSF; and as circulation, custodial, sanitation, mechanical; use codes WWW, XXX, YWC, YYY; 7062 NSF; total 19838 NASF, 26,900 NSF.

Estimated Cost: $ 1,585,486

1.20. Remodel Building 0014 - Women's Gymnasium; all rooms; as classroom facilities and service areas; use codes 110, 115; 750 NSF; as teaching laboratory facilities and service areas; use codes 210, 215, 220, 225, 230, 235, 240, 245; 4400 NSF; as office/computer facilities and service areas; use codes 310, 315, 350, 355, 710, 715; 900 NSF; as physical education facilities and service areas; use codes 520, 523, 525; 3500; and as circulation, custodial, sanitation, mechanical facilities; use codes WWW, XXX, YWC, YYY; 227 NSF; total 9,550 NASF, 9,777 NSF.

Estimated Cost: $ 576,256

1.21. Remodel Building 100 - Robert C. Williamson Hall; all rooms; as classroom facilities and service areas; use codes 110, 115; 6993 NSF; as teaching laboratory facilities and service areas; use codes 210, 215, 220, 225, 230, 235, 240, 245; 14000 NSF; as research laboratory facilities and service areas; use codes 250, 255, 570, 575, 580, 585; 18000 NSF; as office/computer facilities and service areas; use codes 310, 315, 350, 355, 710, 715; 6000 NSF; and as circulation, custodial, sanitation, mechanical facilities; use codes WWW, XXX, YWC, YYY; 9822 NSF; total 44,993 NASF; 54,815 NSF.

Estimated Cost: $ 3,230,796

1.22. Remodel Building 0132 - Centrex (University Police); Rooms 1, 1x, 2, 3, 4, 5, 6, 7, 7A, 7B, 7X, 8, 10, 12, 12A, 14, 15, 99H; as office/computer facilities and service areas; use codes 310, 315, 350, 355, 710, 715; 2297 NSF; as "other" (briefing, evidence, lockers) facilities; use codes 590, 690; 2214 NSF; and as circulation, custodial, sanitation, mechanical facilities; use codes WWW, XXX, YWC, YYY; 915 NSF; total 4511 NASF; 5426 NSF.

Estimated Cost: $ 319,808

1.23. Remodel Building 0757 - Spessard L. Holland Law Center; Rooms 1, 2, 3, 161, 170, 171, 267, 268, 271, 271A, 271B, 271C, 271D, 271E, 271F, 271G, 271H, 271I, 271J, 312, 312C, 320G, 348; as classroom facilities and service areas; use codes 110, 115; 15000 NSF; as teaching laboratory facilities and service areas; use codes 210, 215, 220, 225, 230, 235, 240, 245; 5010 NSF; as library facilities and service areas; use codes 410, 420, 430, 440, 455; 5000 NSF; and as office/computer facilities and service areas; use codes 310, 315, 350, 355, 710, 715; 15000 NSF; total 40,010 NASF.

Estimated Cost: $ 2,358,189

Total Remodeling: $11,299,680

Renovation

1.24. Renovate Building 0024 - Joseph Weil Hall; all rooms; 130,581 NSF.

Estimated Cost: $ 5,079,601

1.25. Renovate Building 0026 - John J. Tigert Hall; all rooms; 68,583 NSF.

Estimated Cost: $ 2,677,879

1.26. Renovate Building 0184 - Frederick N. Rhines Hall; all rooms; 40,198 NSF.

Estimated Cost: $ 1,563,702

1.27. Renovate Building 0689 - Library West; all rooms; 105,818 NSF.

Estimated Cost: $ 4,116,320

Total Renovation: $ 13,427,502

New Construction

1.28. Construct service tower addition to Building 0007 - Anderson Hall, to include: circulation, custodial, sanitation, mechanical facilities; use codes WWW, XXX, YWC, YYY; 7,000 GSF.

Estimated Cost: $ 825,160

1.29. Construct service tower addition to Building 0008 - Flint Hall, to include: circulation, custodial, sanitation, mechanical facilities; use codes WWW,XXX, YWC, YYY; 7,000 GSF.

Estimated Cost: $ 825,160

1.30. Construct service tower addition to Building 0012, Peter Rolfs Hall, to include: circulation, custodial, sanitation, mechanical facilities; use codes WWW, XXX, YWC, YYY; 7,000 GSF.

Estimated Cost: $ 825,160

1.31. Construct service tower addition to Building 0014 - Women's Gymnasium, to include: circulation, custodial, sanitation, mechanical facilities; use codes WWW, XXX, YWC, YYY; 7,000 GSF.

Estimated Cost: $ 825,160

1.32. Construct service tower addition to Building 0024 - Joseph Weil Hall, to include: circulation, custodial, sanitation, mechanical; use codes WWW, XXX, YWC, YYY; 7000 GSF.

Estimated Cost: $ 825,160

1.33. Construct service tower addition to Building 0026 - John J. Tigert Hall, to include: circulation, custodial, sanitation, mechanical; use codes WWW, XXX, YWC, YYY; 7000 GSF.

Estimated Cost: $ 825,160

1.34. Construct service tower addition to Building 100 - Robert C. Williamson Hall, to include: circulation, custodial, sanitation, mechanical facilities; use codes WWW, XXX, YWC, YYY; 7,000 GSF.

Estimated Cost: $ 825,160

1.35. Construct service tower addition to Building 0184 - Frederick N. Rhines Hall, to include: circulation, custodial, sanitation, mechanical; use codes WWW, XXX, YWC, YYY; 7000 GSF.

Estimated Cost: $ 825,160

1.36. Construct an addition to Building 0184 - Frederick N. Rhines Hall, to include: research laboratory facilities and service areas; use codes 250, 255, 570, 575, 580, 585; 8485 NSF; office/computer facilities and service areas; use codes 310, 315, 350, 355, 710, 715; 4200 NSF; and circulation, custodial, sanitation, mechanical; use codes WWW, XXX, YWC, YYY; 5333 NSF; total 12,685 NASF; 18,018 GSF.

Estimated Cost: $ 2,123,962

1.37. Construct addition to Building 0689 - Library West; to include: library facilities and service areas; use codes 410, 420, 430, 440, 455; 179000 NSF; office/computer facilities and service areas; use codes 310, 315, 350, 355, 710, 715; 10000 NSF; and circulation, custodial, sanitation, mechanical; use codes WWW, XXX, YWC, YYY; 79456 NSF; total 189,000 NASF, 268,456 GSF.

Estimated Cost: $ 31,645,593

1.38. Construct service tower addition to Building 0689 - Library West, to include: circulation, custodial, sanitation, mechanical; use codes WWW, XXX, YWC, YYY; 7,000 GSF.

Estimated Cost: $ 825,160

1.39. Construct addition to Building 0747 - William Bartram Hall/Building 0748 - Archie F. Carr Hall, to include: classroom facilities and service areas; use codes 110, 115, 2500 NSF; teaching laboratory facilities and service areas; areas; use codes 210, 215, 220, 225, 230, 235, 240, 245; 16333 NSF; research laboratory facilities and service areas; use codes 250, 255, 570, 575, 580, 585; 32000 NSF; office/computer facilities and service areas; use codes 310, 315, 350, 355, 710, 715; 12500; and circulation, custodial, sanitation, mechanical; use codes WWW, XXX, YWC, YYY; 26625 NSF; total 63,333 NASF, 89,958 GSF.

Estimated Cost: $ 10,604,249

1.40. Construct service tower addition to Building 0747 - William Bartram/Building 0748 - Archie F. Carr Hall, to include: circulation, custodial, sanitation, mechanical; use codes WWW, XXX, YWC, YYY; 7,000 GSF.

Estimated Cost: $ 825,160

1.41. Construct addition to Building 0749 - Psychology Building, to include: classroom facilities and service areas; use codes 110, 115; 1600 NSF; teaching laboratory facilities and service areas; use codes 210, 215, 220, 225, 230, 235, 240, 245; 3333 NSF; research laboratory facilities and service areas; use codes 250, 255, 570, 575, 580, 585; 5600 NSF; office/computer facilities and service areas; use codes 310, 315, 350, 355, 710, 715; 2800 NSF; and circulation, custodial, sanitation, mechanical; use codes WWW, XXX, YWC, WWW; 5605 NSF; total 13,333 NASF, 18,938 GSF.

Estimated Cost: $ 2,232,411

1.42. Construct service tower addition to Building 0757 - Spessard L. Holland Law Center, to include: circulation, custodial, sanitation, mechanical; use codes WWW, XXX, YWC, YYY; 7,000 GSF.

Estimated Cost: $ 825,160

1.43. Construct physical plant facility to include: office/computer facilities and service areas; use codes 310, 315, 350, 355, 710, 715; 5000 NSF; support services facilities and service areas; use codes 720, 725, 730, 735, 740, 745; 25000 NSF; and circulation, custodial, sanitation, mechanical facilities; use codes WWW, XXX, YWC, YYY; 12612 NSF; total 30,000 NASF, 42,612 GSF.

Estimated Cost: $ 5,023,103

1.44. Construct physics facility to include: classroom facilities and service areas; use codes 110, 115; 7200 NSF; teaching laboratory facilities and service areas; use codes 210, 215, 220, 225, 230, 235, 240, 245; 17200 NSF; research laboratory facilities and service areas; use codes 250, 255, 570, 575, 580, 585: 84780 NSF; student services facilities and service areas; use codes 660, 665; 380 NSF; office/computer facilities and service areas; use codes 310, 315, 350, 355, 710, 715; 33320 NSF; circulation, custodial, sanitation, mechanical; use codes WWW, XXX, YWC, YYY; 60067 NSF; total 142,880 NASF, 202,947 GSF.

Estimated Cost: $ 23,923,392

1.45. Construct engineering facility to include: classroom facilities and service areas; use codes 110, 115; 10411 NSF; teaching laboratory facilities and service areas; use codes 210, 215, 220, 225, 230, 235, 240, 245; 15660 NSF; research laboratory facilities and service areas; use codes 250, 255, 570, 575, 580, 585; 35095 NSF; library facilities; use code 410; 300 NSF; office/computer facilities and service areas; use codes 310, 315, 350, 355, 710, 715; 19702 NSF; support services and service areas; use codes 730, 735, 740; 940 NSF; circulation, custodial, sanitation, mechanical; use codes WWW, XXX, YWC, YYY; 34,518 NSF; total 82,108 NASF, 116,626 GSF.

Estimated Cost: $ 13,747,873

1.46. Construct environmental health and safety facility to include: classroom facilities and service areas; use codes 110, 115; 1400 NSF; teaching laboratory facilities and service areas; use codes 210, 215, 220, 225, 230, 235, 240, 245; 2850 NSF; research laboratory facilities and service areas; use codes 250, 255, 570, 575, 580, 585; 750 NSF; library facilities and service areas; use codes 410, 420, 430, 440, 455; 1100 NSF; office/computer facilities and service areas; use codes 310, 315, 350, 355, 710, 715; 7150 NSF; support services facilities; use code 730; 400 NSF; circulation, custodial, sanitation, mechanical; use codes WWW, XXX, WYC, YYY; 5,738 NSF; total 13,650 NASF, 19,388 GSF.

Estimated Cost: $ 2,285,457

Total New Construction: $ 100,662,800

Total Site 1: $198,739,982

UNIVERSITYWIDE STANDARD RECOMMENDATIONS

SR.01. Provide custodial services facilities.

SR.02. Provide sanitation facilities for serving students, staff, and the general public.

SR.03. Correct deficiencies related to safety, health, and sanitation.

SR.04. Replace defective roofs and roofing membranes, except those of unsatisfactory buildings, identified in this survey report as scheduled for demolition or termination.

SR.05. Modify facilities, recommended for continued use in this survey report, to comply with requirements of Americans with Disabilities Act of 1990, Public Law 101-336, pursuant to the "Florida Americans with Disabilities Accessibility Implementation Act," Sections 553.501 - 553.513, Florida Statutes.
